**Subject:** City, Water, Light, and Power - Alternative Demonstration

Hello Rick and Kenn,

My colleague Chris Newman (who is out today) has been sending you notices when EPA receives alternative demonstrations from CCR facilities in Illinois. On November 24, 2020, EPA received a demonstration from City, Water, Light, and Power's Stevenson Drive generating complex for the use of 257.103(f)(1) for Dallman Ash Pond and Lakeside Ash Pond in Springfield, Illinois. EPA is currently evaluating the demonstration for completeness. Once EPA completes this review, the facility will be notified that their demonstration is either complete or incomplete.

If you have any questions please contact Kirsten Hillyer (cc'd) and Chris Newman.

Thank you,

**Jessica Schumacher**
